

UPS RFP ADDENDUM
3/17/20

Hello,

The situation with COVID-19 continues to change quickly. In order to slow the spread of COVID-19 and protect our community, Englewood Schools is joining with other districts around the state to extend school breaks. All Englewood Schools buildings will be closed for an extended break beginning on Monday, March 16. We anticipate reopening on Monday, March 30. We will, however, be continuing to assess that return date as we continue to receive updated information from state agencies and health departments.

Since this closure will conflict with the dates of our posted UPS RFP, we are extending the dates for walkthroughs, questions and final bids. This will give all interested parties plenty of time to finish their proposals, as well as give the district enough time to finish their selection process.

Please see date changes below, but keep in mind that this information could change again if the district decides to stay closed for an extended period of time.

Walkthroughs can be scheduled through April 15th

Questions must be submitted no later than April 14th and will be answered no later than April 15th.

Proposals are due no later than 4:00 PM on April 22nd

Vendor selection will be made on April 24th

Please follow the guidelines explained in the RFP for requesting walkthroughs, or submitting questions.

Thank You
